

Roth Plan Option Overview

What is the Roth Plan Option?

The Roth Plan is an voluntary after-tax contribution option offered through your CalPERS 457 Plan (the “Plan”). If your employer has adopted the option for your Plan, you can elect to make designated Roth contributions of money from your paycheck that has already been taxed. This helps you build a nest egg of tax-free income in retirement. Your qualified distributions of contributions and their earnings, if any, then come out tax-free. Less tax on plan distributions could mean higher net distributions in retirement.

Do You Have Questions? Here's How It Works

My income is too high to contribute to a Roth IRA. Can I make designated Roth contributions to the CalPERS 457 Plan?

Yes, you can contribute to the designated Roth account in your CalPERS Plan even if your income is too high to be able to contribute to a Roth IRA.

Can I contribute to both the pre-tax and designated Roth accounts in the CalPERS 457 Plan?

Yes. You can contribute in the same year in any proportion you choose. The combined amount of all elective contributions must not exceed the annual deferral limit. Visit voya.com/irslimits for information on the annual deferral and catch-up contribution (for persons age 50 or older) limits for 457 Plans.

Can I change or stop making voluntary Roth contributions at any time?

Yes. Please complete a **Participant Change Authorization Form** to stop or change your Roth contributions.

I've made Roth contributions and have changed my mind. Can I change them to pre-tax contributions instead?

No. Once you have designated contributions as Roth, you cannot later change them to pre-tax.

Are my Roth and pre-tax contribution sources kept separate?

Yes. Designated Roth contributions are kept completely separate from your pre-tax contributions within the CalPERS 457 Plan. By adopting the Roth plan option for the Plan, your employer has established a separate account for each participant to make designated Roth contributions.

Can I convert the pre-tax contributions I've made and their earnings to the Roth plan?

Yes. You can convert part or all of your vested plan balance, including earnings, to the designated Roth account. This is called an "in-plan Roth conversion." You can convert part or all of your pre-tax contributions, pre-tax rollover contributions from qualified former employer plans, and their earnings. Generally, the amount you convert becomes part of your gross income for the tax year in which you convert it.

Please consider all of your options and consult with your tax advisor before making any decisions to request an in-plan Roth conversion. For more information, you can also refer to the **In-Plan Roth Conversions - Frequently Asked Questions** document that accompanies the conversion request form.

You are strongly urged to consult with an accountant and/or tax advisor before making your final decision to contribute to the CalPERS Supplemental Income Roth 457 Plan. Once Roth contributions are made, they are irrevocable and cannot be reversed. While CalPERS and Voya Financial® representatives are able to explain the options to you, they cannot tell you whether the Roth Plan is appropriate for you. CalPERS and Voya® will not provide tax or legal advice. Neither this document, Employee New Enrollment Form nor the Participant Change Authorization Form represents tax or legal advice.
